

## Company stabilisation

---

---

### Who

Small and medium-sized enterprises (SMEs) in the hotel and catering industry

---

### What

Measures to improve the economic stability and financial structure of companies

---

### How

Development of a company stabilisation concept by the OeHT, interest subsidy of max. 2 % p.a. (max. 10 years) for a restructured loan, hedging of the risk through the assumption of a federal guarantee

---

### Project scope

Subsidy for a restructured loan from EUR 100,000 to max. EUR 2,000,000, liability from EUR 100,000 to max. 4,000,000 (liability ratio max. 80 % of the restructured loan)

## Company stabilisation in detail

### Funding

Measures to improve economic stability and the financial structure in accordance with the Corporate Stabilisation Guideline.

### Requirements

The personal and material requirements are

- Natural and legal entities and other companies
- Small and medium-sized enterprises (SMEs) in the tourism industry
- The company is of touristic importance (hotel industry: at least 5 % of municipal overnight stays or catering: tourist significance in the form of an offer aimed at non-local guests) or
- Business stabilisation serves to prepare a business takeover by a family member or by a person employed for at least three years in the business to be taken over or by a legal entity in which the aforementioned persons hold a majority stake depending on the legal form
- Company location in Austria
- Upstanding membership of the Austrian Economic Chamber (WKO), Tourism and Leisure Industry Division
- The applicant for funding must be a company in difficulty as defined by the EU
- Willingness of all parties involved – i.e. both the entrepreneur and the creditor – to co-operate to the maximum extent reasonable

## Support

- Ideal support through the development of a business stabilisation concept
- Interest subsidy of max. 2 % p.a. for a restructured loan between min. EUR 100,000 and max. EUR 2 million for a term of ten years
- Assumption of liability by ÖHT for a restructured loan with a liability ratio of 80 %, minimum liability amount EUR 100,000 and EUR 4 million.
- In the case of support in the form of an interest subsidy or assumption of liability, the respective province must grant follow-up funding in at least the same amount as the federal government, measured in terms of the gross subsidy equivalent.

## Note

This is not an investment funding, but support to improve the company's financial situation. This type of support is generally only possible on a one-off basis due to EU state aid regulations. At the same time, there are also restrictions on investment measures during the funding period. The focus of the funding is on restoring the company's profitability.
